REFERENCE(S)			
<p>Ref: EAVA-25171, 12 April 1960</p> <p>1. Headquarters files contain approximately the same information as there listed in the reference.</p> <p>2. A reliable source reported the following in 1956:</p> <p>"MEY hired himself and his group out to ODOPAL circa July 1948 (and was terminated by them in September 1948); he then contacted the French IS circa November 1948; and allegedly collaborated with the Italian Military Intelligence in 1949. MEY appears to be an intelligence peddler and is a dreamer to an extreme, an anti-Communist idealist to the point of fanaticism (or Masima), a security risk to a most dangerous degree, and a man of many words but few, often foolish actions."</p> <p>The foregoing may be passed to GREENSOAP.
